

5 Reasons Why You Should Consider a FleetMind Fleet Management Solution:

1. Responsible Oversight

Program measurement and management oversight are critical to municipal waste organizations. From recycling credit programs to fleet safety, municipal waste and recycling managers need to have a complete view of all fleet, equipment and driver activity. FleetMind tracks drivers, vehicles, routes, containers, incentive programs - and more - to proactively monitor your performance and activities in real-time.

- Powerful and flexible Report Center
- Identify potential vehicle maintenance savings
- Enforce policies such as idle and speed regulations
- Detailed tracking of incentives and recycling credits programs

2. Shared Services Management

If your municipality shares waste and recycling services with neighboring communities, FleetMind's solution will track and verify all services and billing. For any district or county authority structure, FleetMind will provide all stakeholders with real-time access to relevant results and information.

- Accurate calculation of participation and "set-out" rates
- More efficient use of the truck assets
- Optimized routing
- Easy management of recycling incentives

3. Safety

FleetMind provides key capabilities to make it easier for municipalities to implement and monitor fleet safety initiatives. FleetMind's fleet management solution provides managers with real-time visibility into driver activity and behavior. All departments have access to centralized fleet safety data for a completely transparent representation of your fleet's safety performance.

- Centralized fleet safety data
- Monitor driver speeds
- Detailed event records
- Ability to set alarm criteria

4. Sustainability

Green fleets are focused on reducing fuel consumption, mileage and exhaust emissions, and on driving more safely and efficiently. A must for every municipality! FleetMind helps you eliminate unnecessary emissions and reduce costs to benefit your bottom-line.

- Improved fuel consumption management
- Reduced overall mileage
- Reduced emissions
- Driver monitoring and education

5. Automated Service Verification

Municipalities place the highest value on ensuring accurate service delivery and a problem-free customer experience. To help them achieve this, FleetMind provides a comprehensive cart delivery and management system that uses RFID technologies for fully automated service verification. RFID tags associate each garbage can or cart with a specific customer address. Drivers can quickly verify cart details by scanning these with handheld devices.

- Improve customer service
- Ensure accurate billing
- Verify recycling credits
- Track waste and recycling assets
